Genuine Giclée Fine Art Reproduction

Of a watercolor painting by Richard Pierro

This fine art reproduction was created from a high-resolution digital capture of the artist's original artwork brought to our studio. The color of this reproduction was approved by the artist and closely matches the color of the original painting. It was printed on 100% cotton, archival fine art paper with long lasting pigment inks. An ultraviolet and water-resistant finish was applied to protect and extend print life. If properly framed and displayed out of direct sunlight, this reproduction should last for more than 100 years.
